

### Q2 | 2024

#### Princeton Capital Management LLC

##### Objective:

Outperform the S&P 500 over a market cycle with enhanced stability by blending growth companies with dividend-paying equities.

##### Philosophy and Process:

With an objective to offer a better than market return opportunity with reduced volatility, we invest strategically with a bias toward growth in more secure larger cap companies we expect to have at least 25% upside over the next 3-5 years. We identify secular themes and demand drivers and invest with focused portfolios in companies which will be the greatest beneficiaries of these themes over time. Seeking to dampen volatility in stressed markets, we counterbalance the portfolio with large cap yield-oriented holdings supported by the same themes.

We view quarterly performance as a short-term milepost on the path toward wealth creation: success will be contingent on longer time horizons.

##### Universe:

Mega/large-cap companies traded on US exchanges.

##### Inception:

Feb 2008

##### Benchmark:

S&P 500

##### Portfolio Characteristics:

- ❖ Focused portfolio of 20-35 positions
- ❖ Position weightings typically 2-6%
- ❖ Diversified across 4-6 or more growth themes
- ❖ Growth bias with yield considerations

##### Number of Holdings:

24

##### Fund Investment Style:

Value Blend Growth

			Large
			Mid
			Small

### Strategic Approach

Thematically investing with a concentrated portfolio ahead of where the world is going and growing.

### Enhanced Stability

Large cap growth equities counterbalanced by dividend-paying, more defensive equities engenders growth with dampened volatility.

### Long-Term Focus

Wealth creation is derived from applying wisdom, diligence, and discipline to the investment process over longer periods of time.

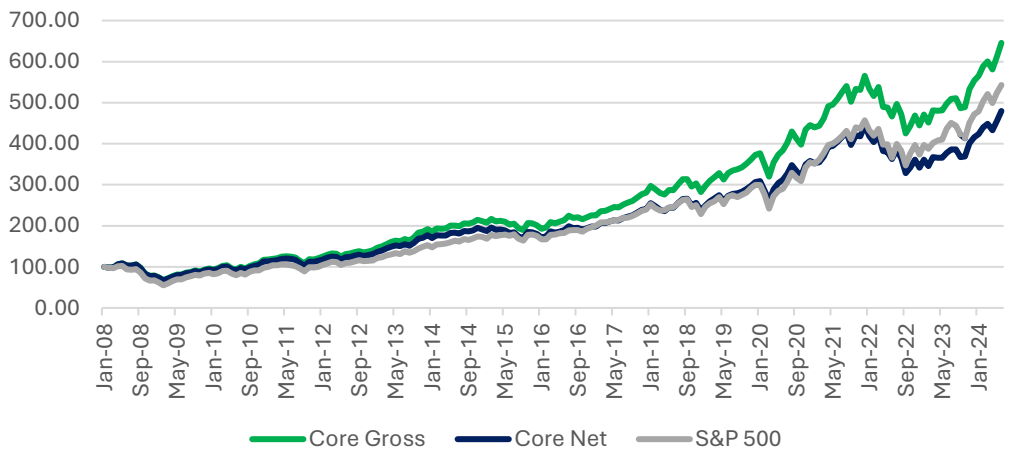

### Top 10 Holdings

	Weight
Microsoft Corp	8.50%

### Disclosures

Princeton Capital Management LLC ("Princeton") is an independent investment management firm registered with the U.S. Securities and Exchange Commission.

**Core Equity Composite** (inception date February 2008). A composite of separately managed model-based wrap and non-wrap accounts investing strategically in large to mid capitalization companies (equities) seeking to preserve wealth in stressed markets yet provide better than market returns versus a general market benchmark over a market cycle. Prior to January 2024, this Composite was titled Core Equity Wrap Account Composite and contained only wrap accounts. The name was changed to include non-wrap accounts.

The **S&P 500 Total Return Index** gauges the large-cap U.S. equity market. The **Russell 1000 Total Return Index** is an unmanaged index that measures the performance of the large-cap segment of the US equity universe. These indices are unmanaged and include the reinvestment of dividends and earnings. Inclusion of index information is not intended to suggest that its performance is equivalent or similar to that of the historical investments whose returns are presented or that investment with our firm is an absolute alternative to investments in the index (if such investment were possible). Investors should be aware that the referenced benchmark funds may have a different composition, volatility, risk, investment philosophy, holding times, and/or other investment-related factors that may affect the benchmark funds' ultimate performance results. Therefore, an investor's individual results may vary significantly from the benchmark's performance.

### Disclosures (continued)

Performance results are calculated internally using Orion Advisor portfolio accounting software. Performance prior to 2017 was calculated using Advent portfolio accounting software. Accounts are included in each composite and its performance at the beginning of the first full calendar month in which the account is fully reflective of the investment strategy. Composite and index performance reflects the inclusion of dividends, interest and other earnings. Valuations and returns are computed and stated in U.S. Dollars. All performance figures for periods one year and greater are annualized. Returns are weighted for the size of each underlying account. Pure gross returns are shown as supplemental information and are stated gross of all fees and transaction costs. Net returns are reduced by the highest fee of 2.25% 1Q08 to 3Q18, 2.20% 4Q18 3Q22, 2.34% 4Q22-3Q23; 2.05% 4Q23 to current. Our advisory fees are disclosed in our Form ADV 2A. Also, there is a compounding effect of advisory fees over time on the value of a client's portfolio. As an example, the deduction of investment management fees would reduce the annualized return for Core Equity for the five years ended December 2013 from 19.4% to 18.7%.

Performance results, and advisory fees, for individual client portfolios will vary due to the timing of investments, additions/withdrawals of funds, diversification guidelines, length of relationship, and size of positions, among other reasons. Past performance is not necessarily indicative of future returns and the value of investments and the income derived from them can go down as well as up. Future returns are not guaranteed and a loss of principal may occur. For additional information about the performance of the Core Equity Composite or our current fee schedules, please contact Princeton Capital Management.

The Top Ten Holdings are based on a model portfolio structured to represent the Core Equity Composite. The Top Ten Holdings securities listed have been selected as our largest holdings and on an objective and non-performance-based criteria. One should not assume that an investment in any of the listed securities was or will be profitable or equal the performance of the securities listed. Princeton offers to provide a list of all recommendations for the prior one-year period on request.

Views regarding the economy, securities markets or other specialized areas, like all predictors of future events, cannot be guaranteed to be accurate and may also result in economic loss to the investor. Any securities listed in this material do not represent all the investments purchased, sold or recommended for client accounts by our Firm and may only be a representative list. Our investments and recommendations may and do change from time to time or at any time.
